Dear Mr. Bent:

Thank you for your July 1 letter to Maggy Bruzelius regarding your ROM update plan. As Maggy has recently moved on to a new job, your letter has been passed on for my attention.

Sinclair Research has no problem with your proposed eprom for improvements to the operating system.

On the topic of Syncware News, I spoke with Tom Woods yesterday and told him we'd be happy to support the publication. We currently have customer inquiries numbering several hundred each month seeking sources of information on Timex Sinclair products. Yours is certainly one we can add to our recommended list.

Please don't hesitate to keep in contact.

Yours sincerely,
